-

Step 1: Before You Measure, Ask Yourself:

- Are there mossy areas or leftover debris that could affect sod installation?
Notes: _____
 - Does your yard retain water or have drainage issues after rain?
Notes: _____
 - Is there a slope or hill that might require soil stabilization or terracing?
Notes: _____
 - How wide is your gate or access path for delivery?
Measurement: _____
-

✓ Step 2: 📏 Measure Each Shape Area of Your Yard

■ Rectangle: Measure LENGTH × WIDTH

1. Length: _____ ft × Width: _____ ft = _____ sq ft
 2. Length: _____ ft × Width: _____ ft = _____ sq ft
 3. Length: _____ ft × Width: _____ ft = _____ sq ft
 4. Length: _____ ft × Width: _____ ft = _____ sq ft
-

● Circle: Measure RADIUS and use $\pi \times r^2$ (3.14 × radius × radius)

1. Radius: _____ ft → $3.14 \times \text{_____}^2 = \text{_____}$ sq ft
 2. Radius: _____ ft → $3.14 \times \text{_____}^2 = \text{_____}$ sq ft
 3. Radius: _____ ft → $3.14 \times \text{_____}^2 = \text{_____}$ sq ft
 4. Radius: _____ ft → $3.14 \times \text{_____}^2 = \text{_____}$ sq ft
-

▲ Triangle: Measure BASE × HEIGHT ÷ 2

1. Base: _____ ft × Height: _____ ft ÷ 2 = _____ sq ft
 2. Base: _____ ft × Height: _____ ft ÷ 2 = _____ sq ft
 3. Base: _____ ft × Height: _____ ft ÷ 2 = _____ sq ft
 4. Base: _____ ft × Height: _____ ft ÷ 2 = _____ sq ft
-

Quantum Sod - Sod Calculator Workbook

Date: April 9, 2025

Step 3: Total Calculation

- Subtotal (sq ft): _____
 - + Add 10% for overage/waste: _____
 -  Total Sod Needed (sq ft): _____
-

17 Project Planning

- Estimated Total Price (after call): _____
 - Estimated Delivery Date: _____
 - Estimated Installation Date: _____
-

Final Step: Call 918.928.2631 to Qualify Your Project and Finalize Your Sod Order
